Note:
Stock CFDs are charged commission on a notional basis, calculated as DPM (Dollar Per Million) — meaning a commission is charged per USD 1,000,000 of trading volume. The minimum commission per order is USD 0.10.
Example:
If you buy 1 lot of JD.NAS (100 shares) at a price of USD 38 per share, the commission will be calculated as follows:
38 × 100 × 80 ÷ 1,000,000 = USD 0.304 (per side)
